Arrival of Machinery

1. A large amount of machinery destined for the quick-hardening cement factory at Dimitrovgrad was unloaded at the port of Burgas. At the same time, a large amount of rolling stock was also unloaded.
2. The cement factory, consisting of a group of four buildings, has a daily output of 2,400 tons of cement.

Ustovo Dam and Power Plant

3. A new concrete dam was erected on the Vantevski (sic) River, a small river, near the site of the old dam. The Vantevski River runs through the village of Raykovo (N 41-34, E 24-45), Smolyan Okoliya. The water of the new dam was conveyed by a canal to Ustovo (N 41-34, E 24-47) to give power to a new electric power plant installed there.
4. This power plant is to supply electricity for the entire Raykovo-Ustovo area and to the mines in the same area.
